

LED LIGHTING

Nothing creates after-dark ambiance like the warm glow of perfectly balanced lighting. Our award-winning lighting casts a warm glow that lets you and your guests enjoy long evenings outdoors – and provides a soft light on steps and surrounding areas. All lighting products work with both TimberTech and AZEK railing and decking.

- Offering includes Post Cap Light, Riser Light, Under Rail Light, In Deck Light, Accent Light, and Lighted Island Cap (AZEK only).
- Other available components include Wire, 100W Transformer, and Dimmer
- Lights and fixtures include installation hardware
- All items sold separately
- Components have a 5-year limited residential warranty

Post Cap Light

Riser Light

Under-Rail Light

In-Deck Light

Accent Light

Lighted Island Cap
AZEK Only

SS-LED LIGHTING

TECHNOLOGY SPOTLIGHT: POST CAP LED LIGHTING

Our updated Post Cap lighting utilizes industry leading technology to increase reliability and efficiency.

Manufactured for use with:

Advanced Electronic Components

The integrated circuit, with thermal & voltage protection, ensures reliability

12 Samsung LED Chips Are 97% Efficient

More chips allow for lower wattage per chip and less heat energy while maintaining the desired incandescence

Raised Shock Absorbing Mount for LED Board

This new mount projects the components from vibrations and jarring which may occur in transit and installation

HALT Performance Tested

Third party testing agency, Intertek, confirms reliability even under combinations of exaggerated environmental stress including: extreme temperature (-300°F to + 200°F), rapid thermal transition, prolonged salt exposure, and vibration
